ADDITIONAL INFORMATION SUPPORTING NJD (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

Ditch within Corps jurisdiction runs through woodlot containing two, small wetland depressions, which, in combination are about 0.1 acres. Neither wetland is adjacent to or contiguous with the ditch. Area's pre-development hydrology completely changed by 50-60 years of agricultural drainage and more recent housing development in and around the project site.
